Simrit, Your Technology Specialist for Seals and Vibration Control

Simmerring®

Fluid Power

Hydraulic Accumulator

O-Rings

Liquid Silicone Products

Special Sealing Products

Vibration Control

Our unique service package sets standards in quality, functionality and cost effectiveness throughout the industry.

With its comprehensive product range and large number of services, Simrit provides a service package unique in the market for almost every application. Simrit employs its leading technological expertise so that you benefit: We analyse your entire system and fine-tune the individual components to each other in an optimum way. This means you get exactly the solution that best fulfils your requirements – cost effective and dependable. Reinforced by single sourcing, saving time and cost, you will find that Simrit is your ideal partner for all sealing- and vibration-related applications when it comes to complex systems.

We have been the leading experts in materials for decades, and this is a significant factor for success, exceptional performance and continuous technological advancement of our products. Famous product names such as Simmerring®, Fluid Power, Hydraulic Accumulator, O-Rings or Liquid Silicone Products underpin this. Together with the fields of Special Sealing Products and Vibration Control, they are intrinsically

connected with the Simrit brand name and constitute the world's largest product range for all applications throughout industry.

As part of the Freudenberg Group, we draw upon established research, development and production expertise within the Group to continuously extend our technological lead through innovative solutions for the purposes of – and in the service of – our global customers with their local market requirements. The close international cooperation of Simrit in Europe and America with our Japanese partner, NOK, in Asia provides you with consistent quality standards wherever our solutions are required. With Simrit Service Centres in all industrial markets, our global sales network supports you and more than 100,000 other customers dependably and on a basis of mutual trust and cooperation at sites on every continent.

The Simrit service package at a glance:

- **World's largest product range**
Comprehensive solutions from a single source
- **Continuous innovations**
Technological prominence for the competitive advantage of our customers

■ **Unique expertise in materials and high quality standards**

Leading know-how for safe and cost-effective applications

■ **A huge number of integrated services**

Support from development up to continuous product development

■ **Globality**

Global expertise with the knowledge of local market requirements.

The Simrit Preferred Distributor Network –
The best address for outstanding sealing technology

Preferred Distributor

As a leading supplier of sealing and vibration control technology, Simrit is committed to being the best partner possible to its customers.

Simrit works throughout Europe with the most competent specialists in the technical trade in order to satisfy your requirements in all areas. United in a strategic network – the Preferred Distributors from Simrit.

You advantages at a glance:

- Competent consulting and support for your individual requirements
- Technically qualified personnel at your distributor
- Access to the entire Simrit product range
- Exclusive services ensuring optimum supply capability

The Preferred Distributor Card is a quality standard amongst our trading partners offering you clear advantages in the market place. If you would like to learn more about how you can profit from this technological expertise, your contact at FTL Technology will be happy to advise you further.

FTL Technology – Sealing, Bearing and Engineered Solutions

Sealing Technology – for over 35 years FTL Technology has provided Sealing Solutions to a wide range of industrial applications. Our business philosophy revolves around partnerships incorporating honesty, integrity, collaboration and problem solving.

During this time FTL Technology has successfully collaborated on many projects with Simrit resulting in our appointment as Simrit Preferred Distributor in 2005. FTL Technology provides the vast majority of products in the extensive Simrit range majoring on the Simmering Radial Lip Seal offering, Specialised Elastomeric Sealing, O-Rings and Vibration Mountings.

Technical Expertise and Instant Service

The majority of our sales and logistics teams are qualified engineers with a culture of Technical Expertise and Instant Service. We can offer you expert advice, give credible recommendations then get your products to you, when, how and where you want them.

Leakage, friction and wear

Our Sealing Solutions approach concentrates on problems with leakage, friction and wear. We offer design and development for sealing systems with applications where both low friction and leak free smooth operation are paramount.

Engineered Solutions

When you use seals or bearings in your equipment there will always be an alternative. When your requirements change we are there to take your application details and bring back a complete Engineered Solution to meet your specific needs.

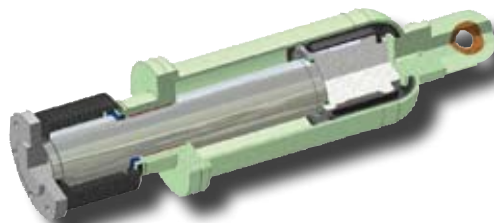

Core Products

Core products for FTL Technology beyond the standard Simrit range include

- PTFE Components
- Heavy Duty Industrial Seals
- Mechanical Face Seals
- Meco Process Industry Seals
- Rotary Joints
- Sliding Element Bearing Solutions
- High Temperature Bearings
- Polyurethane Components and Mouldings
- Braided Packings.

Added Value

Much of our most valuable work for customers is involved with the practical side of application engineering, the fitting of seals and the design of tools to make assembling seals and disassembling seals as easy as possible. Coupling this with our Autodesk Inventor 3D CAD system and in house rig testing, we can offer a sealing solution service which is second to none.

Our service offer

Merkel Xpress – receive fast results thanks to rapid delivery

You urgently require a seal or a vibration control solution? The moment your order reaches us, we will expedite delivery or produce the required part to your specification in record time. With our Merkel Xpress service we can deliver within 24 hours.

- Please send me information regarding delivery advantages of the Merkel Xpress Service.

Leading technical expertise for your applications

Our seals and vibration control solutions stand for operational reliability and dependability based on our comprehensive application and product know how ensuring that we meet your individual requirements. We would like the opportunity to discuss further the advantages of our services.

- Please call me on the following phone number to arrange a visit.
